Status of Claims and Amendments

In response to the November 24, 2009 Office Action, Applicant has submitted herewith a corrected drawing. Applicant wishes to thank the Examiner for the examination of this application. Thus, claims 1 and 3-12 are pending, with claims 1 and 6 being the only independent claims. Acceptance of the drawing and withdrawal of the objection are respectfully requested in view of the amendments to Figure 2(a) and the following comments.

Interview Summary

On December 15, 2009, the undersigned conducted a telephonic interview with Examiner Jones, who is in charge of the above-identified patent application. Applicant wishes to thank Examiner Jones for the opportunity to discuss the above-identified patent application during the Interview of December 15, 2009.

Drawings

On page 2 of the Office Action, the drawings were objected to as failing to comply with 37 CFR §1.83(a). In response, Applicant has filed herewith a corrected drawing.

Specifically, the drawings were objected to for failing to show every feature of the invention specified in the claims. More specifically, it was stated that the pattern provided on the reverse side of the front panel must be shown or canceled from the claims.

In response, Applicant has submitted herewith a replacement sheet with changes to Figure 2(a). Figure 2(a) now indicates the transparent resin layers 44 and 47 of the front panel 24, and the coating layers 43 and 46 that are respectively provided on the reverse side

of the front panel, that according to the written disclosure exhibit a pattern. Please see page 6, lines 23-25 and page 7, lines 6-8 of the translation of the written disclosure.

Applicant respectfully asserts that the aforementioned figure is provided as an example and not meant to limit the claims.

Applicant believes that the drawings now comply with 37 CFR §1.83(a). Applicant respectfully requests withdrawal of the objections.
